### Rescue Chicago Couple On Bay

A Chicago couple, marooned on an island in Green Bay after drifting for several hours in a boat with a "dead" motor, were rescued at 10 last night when their signal fire was seen by searchers on the mainland.

Mr. and Mrs. Russell Doherty of Chicago Heights, Ill., set out to fish walleyes at 1 p. m. yesterday in a boat rented at Breezy Point on Green Bay south of Escanaba.

When they did not return at dark, Kermit Jorgenson of Ona-bay Cabins notified sheriff's offi-Cully Johnson, Conservation Supervisor John Chriske and two Michigan State Police officers organized a patrol of the daughter of Mr. and Mrs. Kenneth

#### WHAT IS CHIROPRACTIC? by F. T. Schuetze, D. C.

Thomas A. Edison once said "The Doctor of the future will give us no medicine, but will interest his patients in the care of the human frame, in diet, and in the cause and prevention of

The science of chiropractic was discovered in 1895 by D. D. Palmer, founder of the oldest chiropractic school. Dr. Palmer had a man come to him who had suddenly become deaf. He found a lump in the back of the man's neck and also found that after pressing this into place, the man's hearing returned to normal.

The chiropractic's special study is the spine. He is a spine specialist. The spine consists of 24 true vertebrae plus the sacrum and coccyx. The spinal cordbegins at the brain and proceeds down through the center of the spinal column, supplying nerve fibres in pairs to body cells through various openings. These nerve fibres carry mental impulses to the minutest parts of the body. If the spinal cord were to become severed all parts of the body below the separation would be paralyzed, proving that the spinal cord transmits motor power. Thus, also, if any one of the segmental bones of the spine known as verebrae, become misaligned, gradually or accidently, interference to certain nerves

A chiropractor's knowledge of the spine enables him to adjust a vertebre and restore it to it's natural position. By so doing, he eliminates pressure on the spinal column and permits the spine to transmit motor power to all parts of the body again. The adjustment is given with such rapidity and spontaniety that the patient experiences no disagreeable pain. On the contrary, there is a decided feeling of relief shortly after the adjustment is made.

Chiropractic does not merely treat the symptoms of a disease but removes the cause of the disease. For example, a disease which chiropractic has had marked success in curing is ulcers. Pressure on the spinal column usually at the 6th dorsal vertebra, prevents the stomach and intestines from receiving the proper motor power from the brain. As a result, the stomach and intestines are unable to function properly, resulting in hyperacidity, which is the prime cause of ulcers.

The above is typical of the results which have been attained by chiropractic with many diseases. For further information about any specific disease call or write F. T. Schuetze. D. C. 1111 Ludington St., Escanaba, Michigan, phone 440.

assured that the decision will be made only tric problem. after an exhaustive and thorough study of all phases of the problem.

The electric problem has occupied the visory Committee has devoted countless hours in a comprehensive search for in- be in the best interests of the community. formation on the subject.

While it is undoubtedly true that the studies already made do not yet point up a solution that stands out in bold relief against the other possible solutions, this is true primarily because all of the facts are not in yet.

There are three possible solutions to the problem and each has its own merits and demerits. The city ultimately will have its choice of: 1-Building its own power plant; 2-Entering into a contract with Alger-Delta Electric Cooperative to provide so-called surplus power to Escanaba for a period of 10 years; or 3-Entering into a contract with a private power company to serve the city's electric needs.

No problem confronting the city in many years has received the close attention of lately eliminated. so many people, all vitally concerned with a vexing situation, as has the electric Corporation which now serves power to none too soon." Escanaba but which desires to get out of moment. At least one other survey by a determine the feasibility of a municipallyowned generating plant.

In addition, surveys have been made by the Rural Electrification Administration (as a part of its pre-approval investigation of Alger-Delta's application for a government loan), and by the Alger-Delta Cooperative itself, as well as by the city's own Power Advisory Board. Still another survey has been promised by a private power company, Upper Peninsula Power Company, in connection with that company's projected proposal to supply power to Escanaba consumers.

### Merry-Go-Round

WASHINGTON - The full story has never been told of the Cohn-Schine comicopera investigation of Europe that first catapulted Senator McCarthy's doubletrouble boys into the public spotlight.

The two junior G-men made a barnstorming trip through Europe last year, breezing in and out of a few U. S. libraries, and holding conspiratorial conferences mith a motley collection of informants, including a suspected Communist spy, a German politician fired for embezzlement, and a discredited journalist making a living circulating anti-American-anti-Eisenhower throw sheets.

Advance spadework for their trip was done by Arthur Noyes, a stringer for the pro-McCarthy Chicago Tribune. The day before the McCarthy team arrived in Frankfort, Noves hustled over to the U.S. library and searched through the book catalogues for controversial authors. He also collected information from an ex-Nazi, named Fred Rudl, who had been sent by Hitler to Prague after the annexation of Czechoslovakia to "aryanize" the famous Orbis publishing house.

A few weeks later. Chicago Tribune publisher Col. Robert McCormick passed through Germany and handed Noyes a

\$1,000 check. "You have done a good job, my boy, and I can see that you need a vacation," remarked the colonel

#### ROW IN A HOTEL

The two McCarthy gumshoes seemed unusually preoccupied mith investigating alleged homosexuals, including one very prominent U. S. official.

The pair also made a show of registering for separate hotel rooms, remarking loudly that they didn't work for the State Department.

The incident of their quarrel in a Frankfort hotel corridor, reported in this column one year ago, was actually reported at the time by the United Pess representative in Germany. But UP superiors killed it, possibly in line with the solicitude which the press associations have sometimes displayed toward McCarthy.

What happened was that Schine discovered a notebook missing, and dispatched his driver back to the hotel to search his other trousers. When the driver returned empty handed, Schine dragged Cohn to the hotel with him to look for it. On the way Schine accused Cohn of stealing it.

The spat got so heated in the hotel corridor that Schine smacked Cohn over the head with a rolled-up magazine. Schine also demanded a search of Cohn's luggage, then suddenly remembered he had left the bothersome notebook in California. Later. their room was found in disarray.

United press reporter Bill Long, who filed nia produce 70 per cent of the a dispatch. It was killed. Rankled over this lettuce, 38 per cent of the broccoli, suppression of the news, Long turned the 33 per cent of the carrots and story over to the Frankfort Abendpost, much of the onions, melon, celery which published it in full.

Cohn immediately retaliated by investigating Abendpost, as to whether the paper dropped as unemployment figures had ever received a U. S. loan. Cohn also have risen, but the growers in demanded privately that the U S. consulate these fertile valleys that had once at Frankfort take measures against Abend- been desert still have the free en-

#### PROBING THE LIBRARIES

The two junior G-men paid superficial visits to only two of the 48 American sistance. libraries in Germany, then announced to the press that they had found Communist

In Frankfort they spent only 30 minutes in a hectic half-hour search through the ing. In one more day the lettuce bookshelves and card files of the U. S. li- would become slimy and overbrary, answering questions from report- grown. ers while they "investigated" Then, leaving newsmen outside, they barged into the library director's office.

Cohn opened the conversation by announcing, "Whew, I'm tired," then pulled of Agriculture, and last year's settle," he added. with his legs on the coffee table. He con- and Vegetable Association. We ducted the entire interrogation from this waited in the lobby of the Westhorizontal position.

Germans smiled, some openly snickered at the local informants used by the Mc-Carthy gumshoes to get the "goods" on prominent U. S. officials. They included:

tor, whose signature was found on a Communist handbill protesting against the European defense community. Loehde was linked with the Red front organization, Landesgemeinschaft Zur Verteidigung Der Demorkratischen Rechte Und Freiheiten in

2. Hermann Aumer, former Bundestag member, who was kicked out of the German Legislature and expelled from his political party in October, 1950, when it was proved that he accepted a 22,000-mark bribe from the oil companies to vote for a raise in gasoline prices.

3. Werner Schobknect, who was dismissed as editor of the Coburg Neue Presse because of his Nazi background. Before he joined forces with McCarthy's investigators, Schoeknecht put out hate circulars, including Das Extrablatt, which viciously attacked President Eisenhower and the

#### United States in general. EISLER'S EX-WIFE

Before the two gumshoes left Germany, they enlisted Mrs. Hede Massing-Eisler as an investigator for McCarthy. She is the ex-wife of Gerhardt Eisler, once branded as the top Communist spy in the United States, who jumped bail here and fled to East Germany.

Cohn and Schine supplied Mrs. Massing with a McCarthy subpoena to serve if she needed it. plus a letter, stating she was an official investigator for the McCarthy committee. As they boarded the plane to take off, Cohn shouted back: "If you need anything, Hede, or if you get in any

#### Good Evening...

COURTESY TICKETS - According to Atty. Boyd C. Baird, Gaylord, Mich., city attorney, courtesy tickets issued to tourists (or to anyone, in fact) are "discriminatory

and therefore illegal and unconstitutional." The Gaylord city attorney's opinion, under date of Aug. 9, 1951, may prove of interest to the Escanaba City Council, which has approved as a matter of policy the issuance of courtesy tickets to all motorists

from outside Delta County. To remove any doubt as to how this column obtained the opinion, let it be known that it was received from City Councilman Edward J. Cox, who voted against the courtesy ticket policy for Es-

Under the circumstances, and in view of the opinion of Gaylord city attorney, the Escanaba City Council should also request an opinion of its city attorney before proceeding further with its courtesy ticket

THE OPINION-Gaylord City Attorney Baird's opinion follows:

"Recently this Council authorized the issuing of courtesy tickets to out of county residents who violate our traffic ordinances. It is my understanding that when a resident of some other county other than our own parks overtime at one of our parking meters, the policeman on duty will look at the license plate, thereby ascertaining the residence of the violator, then write out a courtesy ticket and affix

it to the car. "In effect this exempts the out of county resident from the provisions of our ordinance. Such a person is not put to the trouble of visiting the clerk's office and is not called upon to pay a violation fine. The out of county resident is given no incentive to amend his ways and may pursue a course of repeated violations without

fear of answering for his misconduct." (Atty. Baird then quotes "certain fundamental law" and two cases reflecting the policy of the law to sustain his opinion,

"I should also like to point out that traditionally, and as required by law, public officers of this state take an oath of office to the effect that such officer will uphold

method of enforcing our parking meter ordinance is discriminatory and there-

fore illegal and unconstitutional. "It is not necessary to point out at this time how discrimination is the weapon of tyrants, the foundation for oppression, and is inherently evil when measured by our

standards and ideals. "Nor can the present policy be justified

done on such a small scale X X X that the practice cannot be harmful.

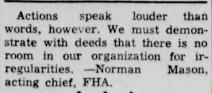

"In answer to 1: It is sufficient to say that the mere fact of one person or group of persons violate the law does not justify nor excuse another person or group of persons in violating the same law, nor does the constant violation of a law abolish or

"In answer to 2: I would like to point out that no facts or figures have been offered proving this point, and there is no showing that proper enforcement of the ordinance would discourage resorters from coming to our city. Even if proper enforcement would work an adverse effect on the resort trade in would not justify discriminatory enforcement since there is no provision in our law allowing discrimination for the purpose of en-

"In answer to 3: It is true that Gaylord's acts taken alone would not be particularly harmful, however, when the practice is indulged in by Gaylord and an increasing number of other towns the combined violations constitute a very real threat to people jumped into the produce our constitutional rights. I don't pretend to know where the danger point is but I do know this: If enough of our constituditions are our dice," he explained. the lettuce market, too. But we're tional rights are ignored often enough by "When we win, we win big. When gamblers in this business. We a group large enough we will be without

> "If it is said that the policy is not discriminatory because every one, local and non-local residents, will be given courtesy tickets then it must be concluded that the enforcement is an unjustified waste of time and expense."

MEMO TO ADVERTISERS

### A Guide to the Point of Sale

Our local stores are the display rooms and warehouses for the world's finest products. Efficient banking, insurance, real estate and other business services are also available to the people in our community. The readers of this newspaper find our advertising columns a dependable guide to the point of sale—a useful source for up-to-date news and information about these goods and services.

In order that advertising expenditures may be made with us on the basis of known values, as required for any sound business investment, this newspaper is a member of the Audit Bureau of Circulations.

Every advertiser should know about A.B.C. The Bureau is a cooperative, non-profit association of 3.450 publishers, advertisers and advertising agencies. Working together, these buyers and sellers of advertising establish standards

for paid circulation, rules and methods for auditing and reporting the circulations of newspapers and periodicals.

At regular intervals one of the Bureau's large staff of experienced circulation auditors visits us to make a thorough audit of our circulation records. The FACTS established by his audit are published by the Bureau in A.B.C. reports which are available to you, our advertisers. These reports tell you how much circulation we have, where it goes, how it is sold and other FACTS essential to the profitable use of newspaper advertising. Ask us for a copy of our A.B.C. report.

VISIT THE INDIAN VILLAGE THIS WEEK END!

By JACK I. GREEN

LANSING (P)- Rep. Rollo G Conlin (R-Tipton), author of the Conlin plan to revise the sales tax diversion amendment today blast ed a revival proposal sponsored by the Michigan Committee for Better Schools (MCBS).

Conlin said the rival plan was drafted by "outside experts" under the guidance of the Detroit Board of Commerce and Detroit industrialists. He implied it was loaded to give the metropolitan area a financial advantage over most outstate school districts.

The 1954 Legislature placed the Conlin plan on the November ballot after a two-year study. The MCBS now is circulating petitions to put its proposal before the voters on the same ballot. Conlin Plan

The Conlin plan would give the public schools two cents of the three cents sales tax. The remainder would be divided between the state and the cities, villages and townships. Its main feature would put the payments on a current, or pay-as-you-go basis, eliminating the so-called "time bomb" effect of the present sales tax diversion which state officials claim virtually bankrupted the sate and will do so again.

The MCSB proposal would allow local governmental units to receive only as much sales tax money as they raise by local property taxes. It would restrict school district's operating costs

Aid To Detroit

It also, Conlin said, would require school districts operating a two mills.

Conlin charged that this was Detroit, which is the only school year college-Wayne University.

The millage feature, Conlin said, would cause trouble to elementary and secondary school districts in the future. Under the MCSB proposal, he said, many districts colud not qualify for as much state aid money as they now receive and the surplus would be reallo-

cated among the richer districts. The Legislature then, he said, will be forced to appropriate extra money to those hard-pressed districts.

Not Save Money

Conlin charged the introduction of the new plan will only confuse the voters and lead to defeat of his plan.

He denied what he said was the MCBS argument that their plan will save the state money. It will force greater legislative grants to poor school districts, he said, and only reduce the contributions of the richer districts.

Capitol sources said it was understood the leadership of the state CIO had agreed to back the rival plan in return for a commitment to limit the sales tax to three cents.

#### Miss Vincent Becomes Bride Of Harold Martin

Franczek solemnized the wedding of Miss Joanne Jane Vincent of Spalding and Harold Ray Martin of Schaffer at 10 a. m. today at St. Francis Xavier Church in Spalding before an altar adorned with gladiolus of pastel shades.

The bride is a daughter of Mr. and Mrs. William Vincent of Spalding. Mr. and Mrs. Clarence Martin of Schaffer are the bridegroom's parents.

The Senior Choir sang the music of the wedding mass. The double ring ceremony was used.

Gown of Lace and Satin The bride, given in marriage by

her father, was attired in a gown of Chantilly lace over satin. The bodice was detailed with a standup collar, long, tapered sleeves and a button back closing. The net overskirt had a front panel of accordion pleating and back insertions. Her fingertip veil was gathered to a tiara of seed pearls. She carried a cascade bouquet of white carnations and red roses. Her only jewelry was a triple strand of pearls, the gift of the bridegroom.

Miss Beverly Vincent served as maid of honor for her sister. Her gown of white taffeta with a net The bridesmaids, Miss Lois Jean Photo) Martin, a sister of the bridegroom, and Miss Lorraine LaMarche, a cousin, wore identical gowns of nile green and orchid with lace overskirts and matching jackets. Their headpieces matched their gowns. They carried colonial bouquets. Their triple strands of pearls were the gift of the bride.

Flower Girls The flower girls were Gail Martin, a sister of the bridegroom and Bonnie LaVallie, a cousin. Their frocks were nile green and orchid. styled like the bridesmaids' gowns.

They carried miniature bouquets. M. assistant pastor. Robert Martin was best man for his brother. Ushering were William LaVallie, a cousin of the bridegroom, and Ronald Vincent, a cousin of the bride.

The mothers wore blue with white accessories and corsages of

# St. Joseph High School To Close Sunday After 70 Years Of Service

will climax an important era of high school history in Escanaba. The last group of seniors, fortythree in number, will walk down the aisle of St. Joseph Church to the familiar graduation strains of 'Pomp and Circumstance" and receive their diplomas as graduates of St. Joseph High School.

After 70 years of existence, this parochial high school will be replaced by the new and much larger Catholic Central-Holy Name High School, which will be available to all Catholic high school students in Delta County from the ninth through the twelfth grades.

The beginning of the high school project started when the first Franciscan pastor, Fr. Eugene Butterman, was appointed to St. Joseph's Church in the year

Collection of funds began, and Fr. Butterman immediately contacted the school sisters of Notre Dame, whose headquarters are located at Milwaukee. The superior at that time promised to send sisters as soon as the school was

Dry Wall Plaster Newest Helper For Home Builder

coat of quick-drying (paint-it board. the-next-day) plaster, thanks to an invention by Vito Busatti.

board, plasterboard, rocklath, in.' concrete, cinder block, brick clay, abdobe, iron and steel.

If this material is all that it is cracked up to be, it will be a welcome addition to the shopping list of the do-it-yourself handyman, who wants to finish his basement, add rooms in the attic or obliterate seams and nail dimples in dry wall panels.

THE INVENTOR recently won approval of his new plaster from the New York Board of Standards and Appeals. That approval made it legal to use the stuff in skyscrapers. Joseph Platzker, former commissioner of housing and buildings for New York City, called it to our attention.

"It can be troweled to a marblesmooth finish even by the most inexperienced hand," said Platz-

#### Report cards were issued to students Friday afternoon, teachers turned in their final reports and school officially closed for the year and the summer vacation

period began. Seventy-six diplomas were issued Thursday evening at the 62nd Commencement before a very large audience in the high school

auditorium. A wealth of sound, valuable advice was presented the graduates by Dr. Edgar W. Whan of the extension service of the University

of Michigan. As diplomas were being awarded, Supt. Wallace Cameron announced that Marlene DeMars had been awarded a scholarship to a nursing school. Word of it had not arrived so presentation

could be made on Class Night. Teachers are leaving for the summer. Mrs. Bernard Tobin, the former Elizabeth Bastian, has gone to Carney to reside, while Miss Lois Borns has left for her

parental home at Iron River. Margaret Douglas left today (Ridings Photo) for her home at LaCrosse, Wis. while Lola Ewing has returned to Marquette. Maxine McDonald is returning to Antigo while Miss Alice Rhode is leaving Sunday for Manitowoc.

#### Fishing Good In Area---But Weather **Exceptionally Bad**

days with excellent catches of perch, rock bass and northern pike. Fellowship.-Allan Miller, pastor. The walleves are also beginning to strike and with a few more days of warmer weather Indian Lake fishing will be at its height.

The high winds of the past few days have cut deeply into boat rentals on both Indian Lake and Big Bay de Noc and fishermen have had to dodge showers and

the elements have been well retrated by the 21 pound northern pike caught in Indian Lake a few days ago.

The coming weekend brings numerous fishing parties to the area according to information supplied by Fred D. Heltman at the Chamber of Commerce and with the return of normal June weather the fishing season will be on in full blast.

#### Gladstone Is Host To Trenary Sunday

GLADSTONE - The Gladstone Redskins will clash with Trenary here Sunday afternoon at the Bay Shore diamond. The game will start at 2.

Both teams have several things in common. They are former members of the Rainbow league now playing in the Bay de Noc loop. They also will be trying for their first victory after having lost their first two starts.

Several new players added to the Redskins lineup are expected to bolster things. Hurling duties will be assign-

ed to either Mel Rothschild or Jim LaLonde, it was indicated yesterday.

#### Babe Ruth League Schedule Posted

Babe Ruth League schedule for next week's game was announced today as follows: Monday-Kiwanis vs. Elks,

ciation vs. L&R Sports Shop, Webster diamond, 6. Tuesday-Paper Mill vs. AFL Unions, Webster diamond, 6.

#### Sport Shorties

Heavyweight champion Rocky Marciano who defends his crown against Ezzard Charles on June 17 has not fought since Sept. 24, 1953 when he whipped Roland LaStarza.

The lowest batting average ever to win a major league title was .306 by Elmer Flick of Cleveland

The last major league player to hit four doubles in one game was Al Zarilla of the Boston Red Sox on June 8, 1950.

In two seasons with the National Industrial Basketball League, Chuck Darling of the Phillips Oilers has averaged 17.1 points a 54 set a new league record.

PONTIAC P-The paralytic son of a Corunna, Mich., manufacturer was killed Thursday in a three car collision eight miles south of Pon-

The victim was Robert Gardner. 32, of Corunna. He is the son of Lawrence Gardner, operator of the Corunna Manufacturing Co., a maker of television cabinets.

Oakland County sheriff's men said Gardner, a paralytic for 15 years was pronounced dead on arrival at St. Joseph Mercy Hospital. Officers said his car, driven by his chauffeur, was struck by another auto which then crashed into a third car.

#### Names Of Teachers Printed As Graduates

NAPOLEON, Mich. (P) - It was no wonder the 39 graduates of Napoleon high school were puzzled when they received their diplomas Friday night.

A printer inadvertently had inscribed the names of teachers instead of the graduates on the sheepskins. An accompanying note from

### Solar Generator To Run A Home

announced development of a solar generator which when refined could convert sunlight into enough energy to run a home.

The Air Research and Development Command said the new generator evolved through research conducted by Donald C. Reynolds and Lt. Col. Gerard M. Leies at the Wright Air Development Center near Dayton, Ohio.

Last April 25, Bell Telephone Co. unveiled a solar battery which converts sunlight into electricity through silicon transistors. Light striking razor-thin strips of silicon creates a flow of electric current in atoms in the strips.

Both the Bell device and the Air Force generator are capable of storing up the energy taken from the sun.

The Air Force generator uses cadmium sulfide, a yellow powder employed as a pigment in the manufacture of paint.

a "wafer-thin slab" of the crystal, four feet by fifteen feet, would supply enough current to take care of a house.

The pilot model supplies a charge of one quarter of a volt Seney and can operate an electric clock. Its crystal is about the size of a

#### Famed Diamond Mine Yields Huge Gem

Cancer fund for 1954.

JOHANNESBURG, South Africa P-The mine which produced the famous Cullinan diamond, largest ever found, has come up with a blue-white stone weighing 4261/2

Trade sources said the new find was of "good quality" and estimated its value today at 100,000 pounds (\$280,000).

Although larger in its uncut state than many historic diamonds, the new gem is a pigmy compared with the Cullianan's 3,0243/4 carats. Found in 1905, it was later divided into nine large gems and a number of small brilliants.

Both it and the new diamond were found in the Premier mine. near Pretoria.

#### Big Weather Balloons To Be Sent Up At Soo

SAULT STE. MARIE, Mich. (AP) -Gigantic weather balloons will be released here between June 15 and July 31 in an Air Force study of cosmic rays upon living creatures at heights up to 100,000 feet. The balloons, equipped with

animal-carrying gondolas that will be released via parachutes at varying heights, measure up to 116 feet in diameter and up to 180 feet in height.

The U.S. Weather Bureau confirmed today that Sault Ste. Marie would be one of the balloon re-
